## EXPERIENCE

Rajmith (Gurugram)  
React Developer 2021 - present

As a React Developer at Nobillio Technologies, I built and maintained scalable web applications using React. My duties included designing user interfaces, developing server-side logic, and managing database schemas. I collaborated with cross-functional teams to deliver high-quality software solutions, implemented RESTful APIs, and ensured application performance and security. My role involved the full software development lifecycle, from initial requirement analysis to final deployment and maintenance.
